MEMORANDUM FOR: [redacted]  
Chief, Administrative Staff, ICS

JUN 1982

STAT

FROM: [redacted]  
Deputy Director, Office of Community Coordination

STAT

SUBJECT: [redacted] Secure Line Requirements

LOGGED'

STAT

REFERENCE: Memorandum ICS 82-5392, dated 12 May 1982

1. Per referenced request, the following are OCC's secure line requirements:

NFIB/NFIC Distribution System

- a. Standard word processor (e.g., NBI, Wang) with disc drive and printer;
- b. to be determined;
- c. ASAP;
- d. rapid distribution of NFIB/NFIC documents and drafts; rapid return and coordination of comments and changes; electronic mail;
- e. new equipment; and
- f. self contained system, no data base interfaces projected at present.

DCID 1/2 Data Base Maintenance System

- a. Teletype Corp. MOD 40 teletypewriter and printer;
- b. 9600 bps;
- c. ASAP;
- d. rapid update of priorities data base; direct availability of data base and changes thereto to COINS users; reduced administration, paper generation and distribution;
- e. equipment is a standard COINS II terminal set to be provided without cost by the COINS system manager;

- f. new equipment; and
- g. interface with COINS system and data bases.

IHC Data Base Maintenance System

- a. Standard ICS word processor;
- b. 10 Kbps;
- c. 1 October 1983;
- d. update data flow studies using CIA central processing system;
- e. new requirement; and
- f. interface with ODP data base.

2. The DCID 1/2 requirement requires only a secure line between CHB and Hqs for implementation. Necessary software has been prepared and the COINS PMO will provide needed equipment and installation.

3. The NFIB/NFIC Secretariat is currently conducting a transmission test program in conjunction with CIA's Office of Communications.
